

GAZE HOLDINGS LTD · DIGITAL ECOSYSTEM

Phase 1 Deposit Breakdown

The Gaze Holdings Hub — gazeholdings.com — with PayOnTime CRM, PayOnTime payment gateway, and the Shopify catalogue connection. This document sets out the full Phase 1 budget and the deposit required to commence.

PREPARED FOR	PREPARED BY	DATE	PHASE 1 BUDGET
Muthoni Ngugi · Gaze Holdings	Sidus Digital	30 May 2026	KSh 100,000

SCOPE

This **KSh 100,000** covers **Phase 1 — the Gaze Holdings Hub** plus the core integrations. The four microsites (Furnishings store, Press Global, HerGaze, and the Institute / Manor build-out) are later phases with their own budgets.

Stack advantage — **PayOnTime is in-house**: no third-party CRM SaaS fee (HubSpot / ActiveCampaign would run KSh 3,000–15,000 per month) and no payment-gateway markup beyond standard M-Pesa / card processing. More of the budget goes to the build.

- **Scope confirmation** — is KSh 100,000 the hub-only Phase 1, or the entire ecosystem? If it is everything, the allocation and payment phasing change.
- **Deposit split** — currently 50 / 50. A 60 / 40 split (heavier upfront) is also common in Kenya to cover the hard domain and setup costs.

Figures are estimates in Kenyan Shillings (KSh) and exclude VAT unless stated. Domain and subscription prices vary by registrar / provider and are passed through at cost. This proposal is valid for 30 days from the date above. Acceptance of the deposit constitutes agreement to commence Phase 1.
